**RE: *State v. Lewis***  
**I.D. No. 0305016966**

Dear Mr. Robertson and Mr. Lewis:

The Court has received and considered Defendant Jimmie Lewis' Motion for a New Trial pursuant to Superior Court Criminal Rule 33, filed on February 17, 2005. For the following reasons, the Motion is **DENIED**.

In this Motion, Lewis argues that he was incompetent to stand trial due to mental illness, and also that the State unlawfully withheld evidence during the trial. Lewis' competency was the subject of substantial debate during pre-trial motions, during the trial itself, and during sentencing. The Court accepts the voluminous evidence that Lewis was competent to stand trial, most notably, reports from the Delaware Psychiatric Center that his main problem is that he is narcissistic, violent, and abusive, and that his attempts to blame these traits on psychiatric illness represent malingering, i.e. faking. Lewis offers no grounds to revisit that determination, and I will not do so here.

Lewis also makes various evidentiary claims. Without exception, these claims are trivialities that were adequately explored, and had little relevance to and no effect on the outcome of the trial. Nothing in this Motion necessitates the grant of a new trial.

I, JIMMIE LEWIS have been fully informed of the rules for participation and goals for mental health group therapy. I understand group therapy is a confidential process and that I will protect the privacy and confidentiality of other participants. I will not disclose information of any sort about other group members to anyone outside the group.

I agree to participate actively in the group, to cooperate with the group leader and to complete the activities included in my therapy group.

I agree to abide by the rules of group participation as outlined below:

1. I will treat group members and leaders with respect whether I agree with them or not.
2. I will not be verbally or physically abusive to any group member or group leader.
3. I agree to contribute what I can and to make honest effort to participate during group times by being on time, listening and missing no groups through my own fault.

I understand failure to follow these rules may result in expulsion from the group and may affect my eligibility to participate in other groups offered by FCM at this facility.

#### BACKGROUND INFORMATION:

Mr. Lewis was a 38-year-old African American male who presented to the Mitchell Building based on an evaluation by Dr. Joshi, a prison psychiatrist. Dr. Joshi described Mr. Lewis on 27 May 2003 as "psychotic and delusional, a danger to self and others, refusing to take medication." He had assaulted a Correctional Officer, and was transferred to the infirmary. Mr. Lewis was described as saying, "I can't distinguish between right and wrong. I am hearing voices telling me to hurt myself and I'm seeing shadows."

Mr. Lewis had been incarcerated on 17 November 2003 and convicted of Carjacking, Theft and Resisting Arrest. According to the police report, Mr. Lewis was picked up by a male driver who was out looking for a male companion for the evening. Mr. Lewis allegedly attempted to rob the driver, at which point the driver jumped out of the vehicle in fear, and Mr. Lewis drove off with the car. He allegedly resisted arrest when caught, and was identified by the driver as the person who stole his car.

According to FCM records, Mr. Lewis was "flirtatious" at times, and had to be redirected for asking personal questions of the mental health examiner. She confronted his "narcissism and attention-seeking behaviors," and questioned the diagnosis of Schizophrenia that had been given him by the physician. Mr. Lewis refused all medication, requesting only Xanax and Valium (highly addictive drugs of the Benzodiazepine family). He asked for art materials, and pornography, stating that these items would be very helpful. He presented with, "broad mood and good eye contact, with no suicidal, homicidal ideation and no auditory or visual hallucinations." He was frequently argumentative and loud. He was observed wearing "paper horns," saying, that they made him feel more comfortable. "It helps me deal with whatever I'm going through. The horns are like a mask. If I deal with these things within me, I'll be a better person, being unjustly accused." He was also described as calm and controlled. He spoke of hearing voices but stated, "I don't know whether it's voices or just my

On 12/07/04 while in the infirmary on P.C.O. Level (2) H. Status, I, Timothy B. Reddick, A.B.I. # 236669, and Jimmie Lewis, A.B.I. # 506622, were both housed in a psychiatric Closed Observation room #197. I hereby certify that I witnessed Mr. Lewis ask nurse Diane Hernandez, and nurse Linda for medical treatment, due to extreme discomfort when urinating and because he had been vomiting uncontrollably. At which time the nurses denied immediate attention, and instructed Mr. Lewis that he would have to fill out a sick-call slip and turn it in! This caused prolonged and undue cruelty by his sickness.
